Electronic Eagle Application Process

Contents

This document includes:

• A general overview of the electronic Eagle application process
• Entering advancements
• Completing the Eagle form
• Entering Life Scout positions
• Verifying the information
• Printing the application
• Acquiring the SE certification

General Overview

Overview

The Eagle Scout application can be completed electronically from within PAS. You can access the form from the Person record, Adv/Trng tab. The program draws information from what is already stored in PAS.

If you enter achievements by individual in PAS, the Eagle program will collect the information and automatically populate the electronic application. Therefore, it is very important that you regularly enter ranks and merit badges into the system.

To view a person’s advancement status, open the Person record, click the Adv/Trng tab, and select ranks or merit badges.

Benefits

There are several benefits to completing the Eagle application electronically.

• Because the online application is completed from information already stored in PAS, there is no duplication of effort.
• The Eagle record will be stored in PAS indefinitely and is easily accessible.
• The final process is more efficient because an electronic file is sent to the Eagle Scout Service rather than paperwork. This reduces the turnaround time for credentials significantly.
**Roles**
The council user must have the Advancements role to access the Eagle form and another role that allows access to the Person form and Membership reports, such as PAS User I or Registration User. Your system administrator can assign these roles.

**Exceptions**
In some special cases, you must complete the paper Eagle form. These cases include unusual circumstances and special needs Scouts.

**The Process**
The overall process for completing and submitting an electronic Eagle Scout application involves the following:

1. Keep the person’s ranks and merit badges current in PAS.
2. Complete the information on the main electronic form.
3. Add Life Scout leadership positions.
4. Verify the information on the application and resolve any resulting errors.
5. When successfully verified, print a copy of the application and submit it to the board of review.
6. When the board of review returns the signed and dated application, enter the review date and confirm that the form is correctly completed.
7. Certify the application.

**Rules**
- To initiate an electronic Eagle Scout record for an individual, the person must be currently registered in a Scouting program, and it must be no more than six month’s after the Scout’s 18th birthday. You can update the Eagle record up to the Scout’s 19th birthday; at that point, the application must be certified.
- All ranks and merit badges must be earned by the time the Scout is 18. The board of review may occur up to six month’s after the Scout’s 18th birthday.
- You can access the Eagle record for this Scout to make additions and changes if the record is not yet certified up until his 19th birthday. Once certified, you can access the record only for inquiry purposes.
- You can process an electronic Eagle application during the two-month unit lapse period.
**Navigation Tips**  On the Eagle form, you can:

- Press the `<Tab>` key to advance through the fields.
- Press `<Shift>` and `<Tab>` to return to the previous field.
- In the Optional Merit Badge section and the Life Scout Leadership form, you can use the up and down arrow keys on your keyboard.
- Use the X on the toolbar to delete an incorrect entry.
Enter Advancements

Process
Enter all ranks and merit badges on the person’s record. You can record advancements either on the Adv/Trng tab of the Person record or in the Record Achievements program. If you are entering current-year advancements, use Record Achievements. This process will update unit records for end-of-year totals.

Unit-Management Software
If units in your council are using unit-management software, you can upload advancements directly from the software. This automatically loads ranks and merit badges to PAS without requiring the registrar to type the information. Then when you create an Eagle record, the information is again automatically inserted into the record without registrar intervention.

Complete the Electronic Application

Procedure
Use the following procedure to complete the electronic Eagle application.

<table>
<thead>
<tr>

</tr>
</thead>
</table>
| 1    | On the Person record, Adv/Trng tab, click the Eagle button.  

Rule: This button will be available only if the person meets the age requirement and has a current unit registration. |

Click OK. |
| 3    | The system gathers any information from PAS required for Eagle for the selected individual and populates the screen. A sample partially completed screen follows.  

![Eagle Scout Form](image)

Any incomplete fields that appear in red are required prior to verification. After you select a date for those fields, the name of the field no longer appears in red.  

The table on the next page explains each field. |
### Navigation Tips:

To complete a date field, either type the date or click the down arrow button to select a date from the calendar. If you type an invalid date, you must correct it before continuing.

In Required Merit Badges, press the `<Tab>` key to advance through the fields. Press `<Shift>` and `<Tab>` to return through the fields. In the Optional Merit Badge section, you must use the up and down arrow keys on your keyboard; pressing the `<Tab>` key will not advance the cursor in this area.

### Note:

Entering ranks and adding or deleting merit badge information at a blank field on the Eagle application will update the Person record with the information entered.

| Required merit badges                      | Those that appear in red are required. If no date appears, click the down arrow button to select a date from the calendar. When you add a date on this form, the Adv/Trng tab on the Person form is updated as well. To delete a merit badge, click the red X on the toolbar.  

In some cases, you have an option to complete one or another of the badges and not necessarily all of the badges. In these cases, you do not have to enter a date for all the listed badges. For example, enter a date for Cycling or Hiking or Swimming, not necessarily all three. |
| Optional merit badges                      | Add any optional merit badges by clicking the down arrow and select the badge name from the list. Then type the date earned. This will update the Adv/Trng tab on the Person form as well. To delete an optional merit badge, use the delete icon on the toolbar, or go to the Achievements module of PAS. |

**Toolbar**

Only four options are available on the toolbar at the top of the Eagle form. They are Save (using the diskette icon), Print (printer icon), Exit (door icon), and Delete (X icon). Other icons are not functional. Note that the Delete icon is only active for merit badges.
Enter Life Scout Positions

Overview

You can enter as many Life Scout positions as the individual has served. However, the system will count only the earliest date to the latest date and not overlapping dates.

Rules

• While the Eagle Scout form does not need to be complete, it must be accurate before you can access the Life Scout Positions window.
• All positions must be held after the Life board of review date and before the person’s 18th birthday.
• The start date for a position cannot be before the date when the Scout joined the program.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 1    | Click the Life Scout Leadership Positions button.  

➤ Note: If you have made changes to the Eagle application, a prompt asks if you want to save before continuing.

Result: A new window opens. The Life board of review date is automatically completed from the electronic Eagle application.
<table>

<tbody>
<tr>
<td>2</td>
<td>You can either place your cursor in the Position field and begin typing the position name, or click the down arrow button to the right of the Position field and select from a list of positions. Do the same to enter start and end dates. Note that the End Date must be earlier than the person’s 18th birthday.</td>
</tr>
<tr>
<td></td>
<td><strong>Note:</strong> If you enter an invalid date, the invalid date is removed and you are required to enter a valid date. A message explains why the date is invalid.</td>
</tr>
</tbody>
</table>

**Navigation Tip:**

Press the <Tab> key to advance through the fields or the <Shift> and <Tab> keys to return to a previous field. You can also use the up and down arrows on the keyboard to advance to the next position or return to a previous position.

| 3    | To delete a position, place your cursor on the position name to highlight the line, then click the Delete button. A prompt asks if you want to delete the record. Click Yes. If you make a mistake, use the Delete function to start over. |
|      | **Note:** The Total months box automatically calculates the number of months entered that qualify for Eagle requirements. This includes only time after the Life board of review date and before the individual’s 18th birthday. You can enter many more positions; however, only qualified months are counted. In addition, overlapping periods do not count. The system counts a time interval only once, regardless of how many positions were served in that month. |
| 4    | Click the Close button when you have completed this window. If you have entered information or made changes, the system asks if you want to save the changes. Answer Yes. A message indicates that the positions have been applied and saved. Click OK. |
Verify the Data

Verification Process

When you have completed the Eagle Scout form, click the Verification button. The system checks the information for completeness and accuracy. If there are problems, an error report is displayed. You must resolve all errors before continuing. A sample error report follows:

To print this report, click the Return button. Then click the Print button on main Eagle form. The print job is sent to the report repository.

The first two pages printed are the application; the third page is the error report. When the verification is successful without errors, the error report shows “no errors.” At this point, you can only enter the board of review date and the required signature affixed field.

Cancel Verification

If you need to correct an error on the Eagle form after verification, you can select the Cancel Verification button. This allows you to edit any field on the electronic application.
Print the Application

Process

When you have corrected all errors, you must print the application and submit it to the Eagle board of review. To do this, click the Print button.

The report is sent to the repository. To print it, select the Printing button on the main ScoutNET page. This opens the report repository. Click the Eagle Rank Electronic Application Report to open it. The report opens in Adobe Acrobat Reader. To print the report, click the printer icon on the Reader toolbar. See the sample screen below.

If you have not run the verification process before attempting to print the application, and there are errors on the application, the following message appears. Run verification and correct all errors before printing the application.
Acquire SE Certification

**Process**

When the application is approved and returned to the council, reselect the Eagle Scout form and mark the radio button for Required Signatures Affixed. Then enter the Eagle board of review date. The Eagle Certification field will be automatically completed.

Once approved by the Scout executive, click the SE Certification button. Now that the application is certified, no changes are allowed.

*Rule:* The application must be certified before the Scout’s 19th birthday.

A daily process validates all certified applications. A report is automatically sent to Eagle Scout Service so that ID cards, certificates, and congratulatory letters can be issued for each new Eagle Scout along with an invitation to join the National Eagle Scout Association (NESA).

Print Rosters

**NESA and Eagle Rosters**

You can print a list of NESA members or a list of Eagle Scouts in your council providing you have a registration role. Your system administrator can assign this role.

To print rosters, select Membership Reports, then Lists. Select either the NESA or Eagle Roster. Make the appropriate selections at each tab, then submit the report. When you submit the roster from Membership Reports, it is sent immediately to the repository. However, it is not actually created until you select the report from the repository. This process may take a few minutes. An hourglass appears while the report is generating.

When completed, the report automatically opens. A sample Eagle roster appears at the end of this document.

The Eagle roster uses Crystal Report Viewer software (rather than Adobe Acrobat or BSAPrint). A sample of the Crystal toolbar for navigating this report appears on the next page. The table after the toolbar explains each tool.
The Crystal toolbar has useful tools.

The Conversion

Background
The conversion process draws from two sources of information: the current Eagle system (called the legacy system) and several Access databases containing early Eagle recipients (the archives).

Process
The conversion process compares the information in these two systems with information in PAS. If the new Eagle record matches a name, address, council number, and date of birth on a current PAS record, they are combined. If there is no match, a new person record is created with links to an Eagle and, if applicable, a NESA record.

Many of the older Eagle archive records have no address associated with the person. In addition, the middle initial is converted as part of the first name and the suffix becomes part of the last name. For example, James A. Walker, Jr. is converted from pre-1988 data. In PAS, his Person record shows James A in the First Name field and Walker Jr. in the Last Name field. Keep this in mind if you intend to search for a person who became an Eagle prior to 1988. Use the wildcard percent sign when searching.

Merge Records
After the conversion, you may want to print the Duplicate Member List. Select this report from Membership Reports, Lists. This report may identify some duplicate membership records created as a result of the conversion. If you find two records for the same person, use the Merge Person program to combine the new Person record with the associated Eagle and the existing Person record. You cannot merge two records if each person has an Eagle rank.
See the corresponding numbers on the application on the next pages.

EAGLE SCOUT RANK APPLICATION

TO THE EAGLE SCOUT RANK APPLICANT: This application is to be completed after you have fulfilled all requirements to the Eagle Scout rank. Print in ink or type all information. List the month, day, and year for all dates. When using computer date blocks list the date July 1976, as 07/19/76 (or 7/19/76, if preferable). When you have completed this application, sign it and submit it to your unit leader.

LIST YOUR FULL LEGAL NAME (UP TO 30 CHARACTERS ONLY).

Social Security No.

Date joined a Boy Scout troop
Date became a Venture Scout
Date became a Varsity Scout
Date of First Class Scout board of review
Date of Star Scout board of review

Were you a Cub Scout?
Were you a Webelos Scout?
Did you earn the Arrow of Light Award?
Had you completed fifth grade upon joining?

Age Requirement Eligibility: Merit badges, badges of rank, and Eagle Palms may be earned by a registered Boy Scout, Varsity Scout, or Venture. He may earn these awards until his 35th birthday. Any Venture who achieved the First Class rank as a Boy Scout in a troop or Varsity Scout in a team may continue working for the Star, Life, and Eagle Scout ranks and Eagle Palms while registered as a Venture up to his 35th birthday. Scouts and Venture who have completed all requirements prior to their 18th birthday may be reviewed within three months after that date with no explanation. For boards of review conducted between six and nine months after the candidate's 18th birthday, a statement by an adult explaining the reason for the delay must be attached to the Eagle Scout Rank Application when it is submitted to the Eagle Scout Service. The Boy Scout Division of the national office must be contacted for procedures to follow if a board of review is to be conducted more than six months after a candidate's 18th birthday.

A Scout or Venture with a disability may work toward rank advancement if he is 16 years of age. See Achievement Committee Advice and Procedures for details.

Requirement 1: Be active in your troop, team, crew, or ship for a period of at least six months after you have achieved the rank of Life Scout.

Requirement 2: Demonstrate that you live by the principles of the Scout Oath and Law in your daily life. List the names of individuals who know you personally and would be willing to provide a recommendation on your behalf.
